# ABOUT STIR EDUCATION

We support education systems to reignite intrinsic motivation in every teacher and official, to role-model the foundations of lifelong learning for every child.

# ALIGNMENT WITH GOVERNMENT PRIORITIES

# WORKING WITH GOVERNMENTS

- Our core offer centres around the significance of intrinsic motivation.
- We take a system-wide approach to professional development.
- We promote a love for lifelong learning across the system.
- We recognize the effect that one group of stakeholders inevitably has on another.

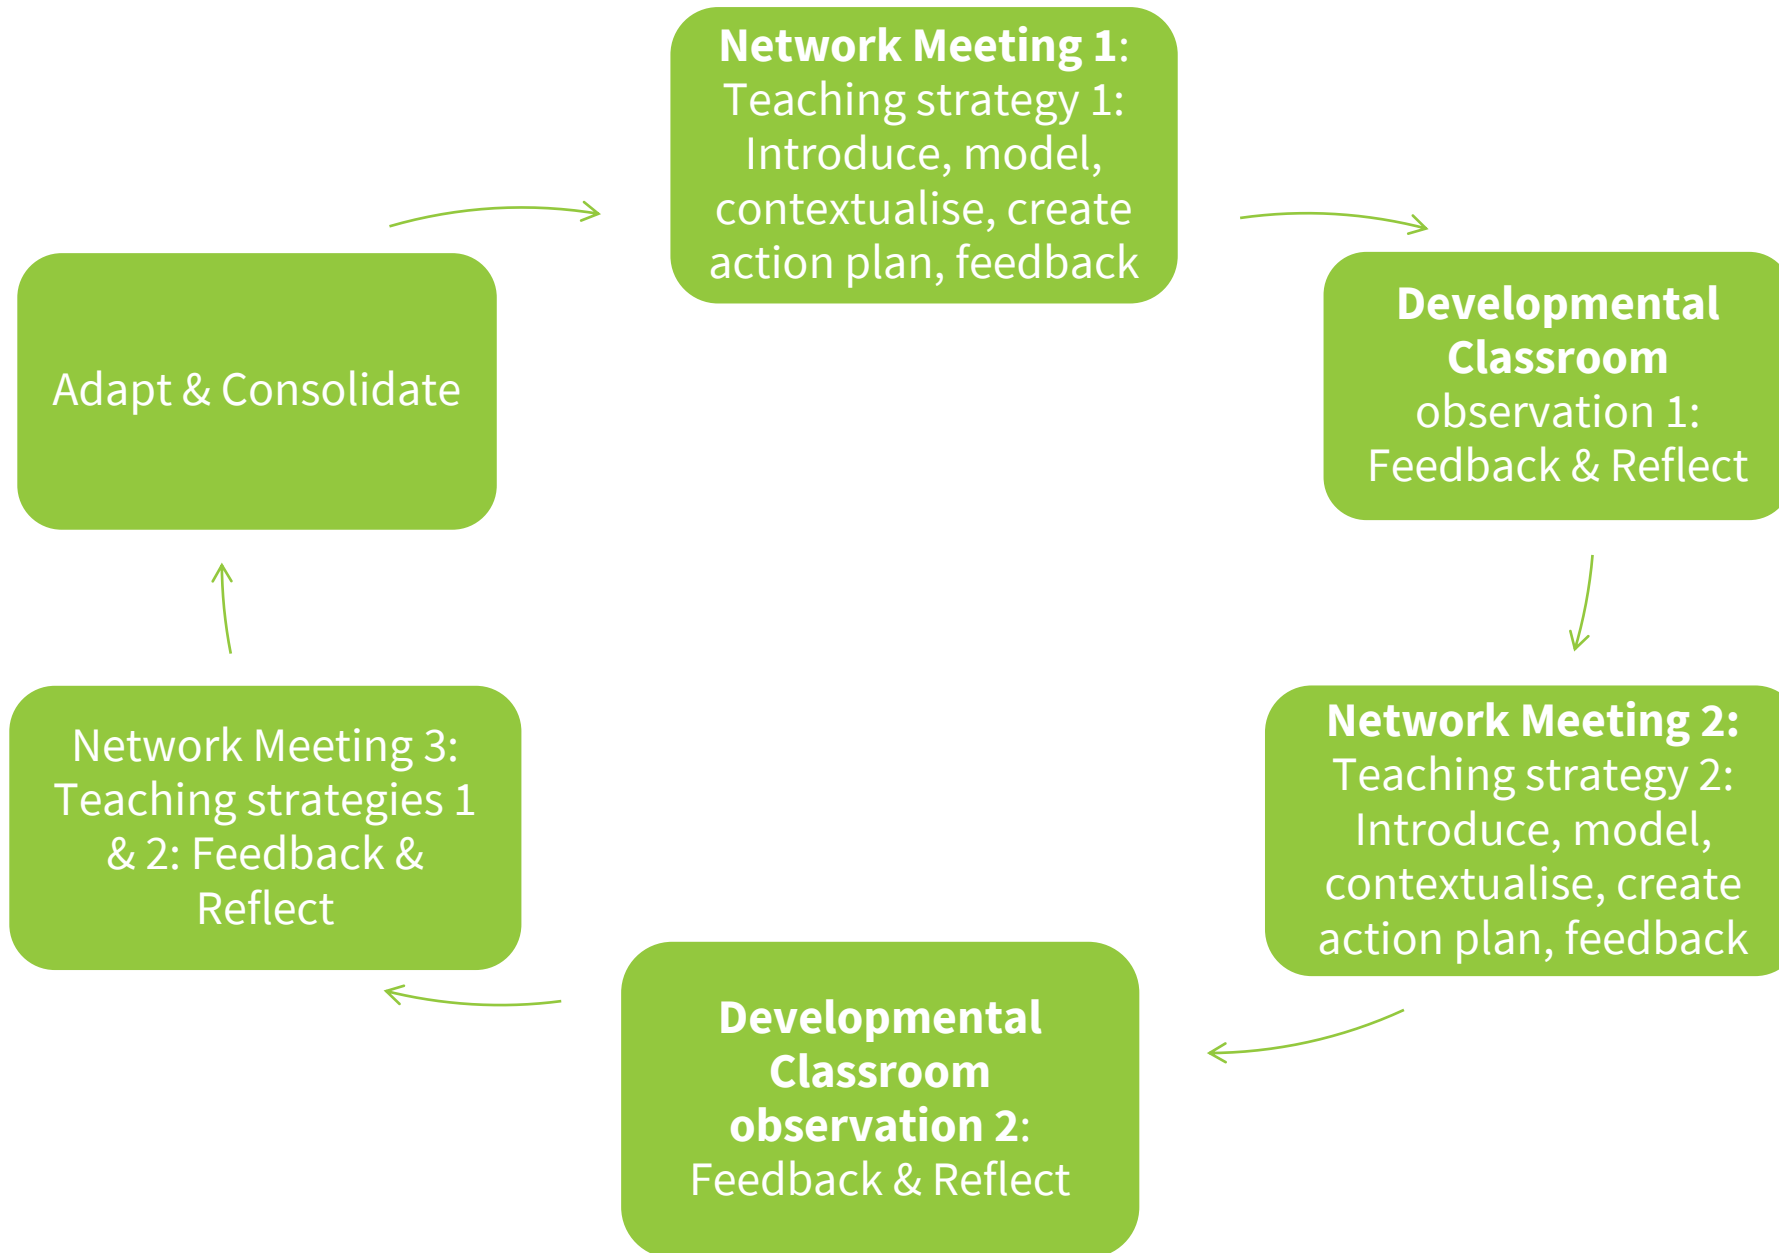

## HOW IT WORKS

Our approach works through role-modelling and relationships at all levels of education systems. It is based around three core principles:

- Peer networks.
- Action and feedback.
- Reflection.

# ILLUSTRATION OF THE LEARNING IMPROVEMENT CYCLE

## Learning so far

- Officials are actively engaged in teachers' professional development
- Teachers are actively engaging their students, including praising students, calling on them by name, and treating boys and girls equally.
- Teachers consistently reported trying out new evidence-based teaching practices introduced during STiR network meetings.
- Teachers are very active in engaging in peer observation to learn from each other.
